<i>Description</i>	<i>Page Number</i>
LIST OF ACRONYMS	<i>a</i>
 CHAPTER ONE INTRODUCTION	
General	1-1
Study Objectives	1-1
Public Involvement	1-2
Issues to Be Resolved	1-2
 CHAPTER TWO EXISTING CONDITIONS	
Introduction	2-1
Airport Setting	2-1
Location	2-1
Classification	2-2
Historical Background	2-3
Community Profile	2-3
Size	2-3
Population	2-3
Climate	2-4
Economy	2-4
Air Traffic Activities	2-6
Air Traffic	2-6
Local Air Service	2-6
Passenger Enplanements	2-7
Cargo Activities	2-7
Based Aircraft	2-7
Airspace and Air Traffic Control	2-7
Ground-Based Navigational Aids and Instrument Approach Procedures	2-8
Flight Service Station	2-9
Aviation Facilities	2-9
Runways	2-9
Waterlane	2-11
Taxiways	2-11
Aircraft Parking Apron	2-11
Terminal Area Facilities	2-13
Airport Access	2-14
Vehicle Parking	2-15

Description	Page Number
Airport Support Facilities	2-15
Airport Rescue and Fire Fighting (ARFF) Facility	2-15
Airport Maintenance Equipment Facilities	2-16
Airport Security	2-16
Fuel Facilities and Aircraft Services	2-16
Air Cargo Operations	2-17
Fixed Base Operators (FBO)	2-17
Hangar Facilities	2-18
Airport Utilities	2-18
Airport Environs and Land Use	2-19
Comprehensive Plan	2-19
Land Use Plan	2-19
Parks and Recreation	2-20
Conclusion	2-20

CHAPTER THREE PROJECTIONS OF AVIATION DEMAND

Introduction	3-1
Industry Trends and Airport Role	3-1
Projections of Passenger Enplanements	3-2
Linear Trend Methodology	3-3
Market Share Methodology	3-3
Seasonal Analysis Methodology	3-4
Enplanement Projection Comparison	3-6
Projection of Airline Operations and Fleet Mix	3-7
Air Carrier Operations	3-7
Air Taxi Operations	3-9
Commercial Fleet Mix Projection	3-10
Critical Aircraft	3-11
Projection of Air Cargo Activity	3-12
Projection of General Aviation Activity	3-13
Based Aircraft Projections	3-13
Preferred Based Aircraft Projection	3-14
General Aviation Aircraft Operations Projection	3-14
Based Aircraft Fleet Mix	3-15
Projection of Military Operations	3-16
Projection of Instrument Operations	3-17
Activity Peaking Characteristics	3-18
Projections Summary	3-20

Description **Page Number**

CHAPTER FOUR DEMAND/CAPACITY ANALYSIS AND DETERMINATION OF FACILITY REQUIREMENTS

Airfield Demand/Capacity Analysis	4-1
Airfield Layout	4-2
Weather Conditions	4-3
Aircraft Fleet Mix	4-4
Touch-and-Go Operations	4-5
Peak Hour Airfield Capacity	4-5
Annual Service Volume	4-7
Range of Delay	4-9
Demand/Capacity Summary	4-10
Airfield Facility Requirements	4-11
Runway Length	4-14
Runway Width	4-15
Runway Pavement Strength	4-15
Runway Depth (Floatplane Basin)	4-16
Taxiway and Taxi Channel System	4-16
Airfield Safety Areas	4-16
FAR Part 77 Surfaces	4-19
Navigational Aids (NAVAIDs)	4-21
Passenger Terminal Facility Requirements	4-25
Airline Support	4-25
Public Space	4-29
Concessions	4-29
Other Airport Space	4-30
Conclusion	4-31
Aircraft Gate and Apron Requirements	4-31
Aircraft Gates	4-31
General Aviation Facility Requirements	4-33
Aircraft Storage Buildings and Apron	4-33
Transient/Based Aircraft Tie-Downs	4-35
Floatplane Basin Slips/Facilities	4-36
Helicopter Facilities	4-36
General Aviation Auto Parking	4-36
Fixed Base Operators	4-36
Support Facility Requirements	4-37
Airport Rescue and Firefighting	4-37
Aircraft Maintenance/Snow Removal Equipment Building	4-37
Fuel Storage	4-38
Air Cargo	4-39
Airport Access/Circulation and Automobile Parking Requirements	4-39
Airport Access and Circulation	4-40
Auto Parking	4-40
Basic Infrastructure Requirements	4-42

Description **Page Number**

CHAPTER FIVE ALTERNATIVE PLAN CONCEPTS

Development Considerations 5-1

Evaluation Criteria and Methodology 5-3

Airfield Alternatives 5-3

 New Runway Alternative 1 - No Action 5-4

 New Runway Alternative 2A - Parallel GA Runway (Close-In) 5-5

 New Runway Alternative 2B - Parallel GA Runway (South of Basin) 5-5

 New Runway Alternative 3A - GA Runway on West Douglas Island 5-5

 New Runway Alternative 3B - GA Runway on West Douglas Island 5-5

 Recommended New Runway Alternative 5-6

Runway Safety Area Alternatives 5-12

 RSA Alternative 1 - Construct RSA to Full Standards 5-13

 RSA Alternative 2 - Construct RSA to Full Standards, Shift Runway to East 5-13

 RSA Alternative 3 - Declared Distances/Displaced Threshold 5-13

 RSA Alternative 4 - Construct RSA on Airport Property 5-14

 RSA Alternative 5 - No Action 5-14

 Recommended RSA Alternative 5-14

Passenger Terminal Alternatives 5-17

 Terminal Development Alternative 1 - Existing Concourse Configuration 5-19

 Terminal Development Alternative 2 - West Air Carrier Concourse 5-19

 Terminal Development Alternative 3 - Realign East Air Carrier Concourse 5-19

 Recommended Terminal Alternative 5-19

General Aviation Considerations 5-21

 West GA Development Area 5-22

 Central GA Development Area 5-22

 East GA Development Area 5-22

Air Cargo Facility Considerations 5-23

Airport Maintenance/Support Facility Alternatives 5-23

 Facility Requirements 5-23

 Alternative Development Sites 5-25

 Evaluation of Alternative Development Sites 5-26

 Selection of the Recommended Alternative 5-32

Vehicular Access and Parking Alternatives 5-33

 Terminal Curb 5-33

 Parking Facility Alternatives 5-33

 Recommended Parking Alternative 5-34

 Access and Circulation Alternatives 5-35

 Recommended Access and Circulation Alternative 5-36

Utilities/Infrastructure Requirements 5-38

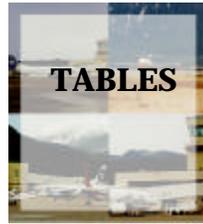

Duck Creek and Jordan Creek Issues 5-38

Description	Page Number
Recommended Development Plan	5-39
Runways and Taxiways	5-39
Passenger Terminal Facility	5-40
Air Cargo	5-40
General Aviation Aircraft Parking	5-41
Helicopter Facilities	5-42
Snow Removal Equipment Building	5-42
Floatplane Basin Development	5-42
Passenger Terminal Vehicle Parking Lot	5-43
Surface Transportation Access	5-43

CHAPTER SIX FINANCIAL PLAN

Introduction	6-1
Development Schedule and Costs	6-1
Operating Revenues and Expenses	6-3
Source and Use of Funds	6-7

End of Table of Contents

<i>Table Number</i>	<i>Description</i>	<i>Page Number</i>
 CHAPTER TWO EXISTING CONDITIONS
