

Visitor Industry Task Force:

The volume of cruise passengers who disembark to visit Juneau is dependent on the time of day and hours that each ship is in port. To help you better evaluate the impact of cruise tourism, the graph below shows the maximum cruise passenger volume by four-hour intervals for Sunday, June 30, 2019 through Saturday, July 6, 2019, based on maximum occupancy by vessel and hours in port as published in the Cruise Line Agencies of Alaska calendar. Crew numbers are not included.

I would be happy to work with the task force if additional data is needed.
