I live on Auke Bay , hike the trails and boat to my favorite coves. In the last couple years, the trails are crowded with guides talking all the way and the loud speakers from whale boats heard from far out on the water.

I am happy for quality tourism but Juneau has turned the corner to being disrespectful to wildlife and the serenity of living here.

Loud speakers should never be allowed from the ships or small boats

We need to limit the number of ships allowed to anchor or dock to 4 ships a day.

I would add that one day a week there not be allowed any ships to dock or anchor in town.

Thank you for listening
