Please consider both increasing the funds and extending the time for the Short-Term Rental Assistance Program.

As a single-mom with very little income (due to Covid 19), I'm scrambling to make June's \$2000 rent, let alone utilities, food, gas. I normally work privately as an in-home childcare provider, but as this is no longer feasible, I have no idea when I will be able to start to recover, financially speaking.

Juneau is a very expensive place to live for everyone, but it's prohibitively expensive for one-income households.

Thank you,
Kathleen Nyssen
