RE: FY22 Operating Budget

Please find attached the draft FY22 Operating Budgets for Augustus Brown Pool and Dimond Park Aquatic Center, including projected actual expenditures and revenues for FY21.

I am pleased to report that the Aquatics Division reduced costs this year, and projects an overall savings of $422,200 compared to the FY21 budget approved by the Assembly. This is remarkable because the FY21 budget assumed Augustus Brown Pool would be closed for renovations for much of this year. With the exception of negotiated salary increases and increased building maintenance charges, we are proposing no changes to the division’s FY22 request.

Revenues, as expected, are down significantly due to extended closures and reduced operations resulting from the COVID-19 pandemic. We anticipate FY21 revenues will be $404,500 (69%) less than the FY21 budget approved by the Assembly. We are anticipating that revenues will normalize by FY22.

The following tables summarize the significant (> $1,000) changes and adjustments to FY21 and FY22 expenditures.

In order to meet deadlines set by the Finance Department for the FY22 budget, we must receive any recommendations or changes from the Aquatics Board no later than January 19, 2021.

Please let me know if you have any questions.
